ONE TEAM • ONE PROJECT • ONE GOAL

WHY WE MADE THIS

Our group turned simple craft materials into a miniature computer. This project helped us use our creativity, work as a team, and appreciate how technology can inspire new ideas.

TOOLS & SUPPLIES

MATERIALS USED

SCISSORS • BOND PAPER • CONSTRUCTION PAPER

GLUE STICK • CARTOON • HIGHLIGHTER

CUTTER • CANDLE

FROM PIECES TO PRODUCT

1. Gather and prepare the materials
2. Cut and shape the computer parts
3. Assemble the monitor, system unit, keyboard, and mouse
4. Add paper details and decorations
5. Check and finish the model

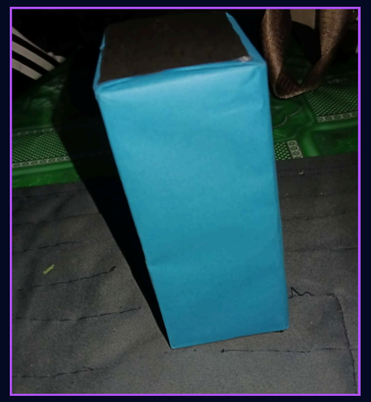

WHERE THE MONEY WENT

MATERIAL	COST
Scissors	₱ 15
Bond paper	₱ 10
Construction paper	₱ 35
Glue stick	₱ 30
Cartoon	Free
Highlighter	₱ 20
Cutter	₱ 15
Candle	₱ 20

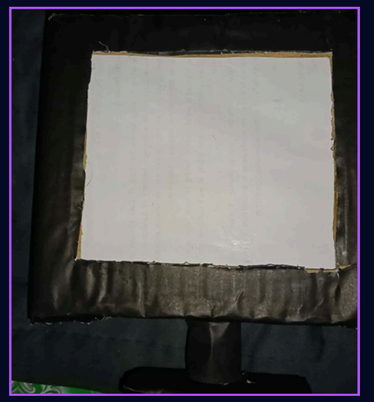

TOTAL: ₱145

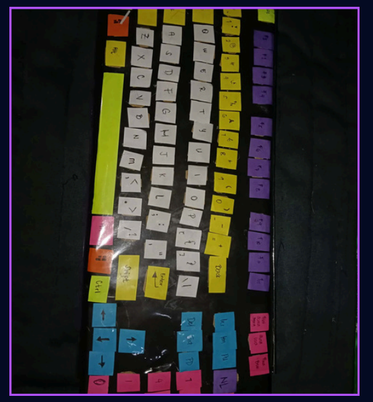

HERE IS WHAT WE CREATED

OUR TAKEAWAY

- We learned to be patient and work together.
- We discovered that simple materials can become something creative.
- We practiced planning, problem-solving, and sharing tasks.
